

# CENTRIFY AND SAILPOINT: ZERO TOLERANCE FOR PRIVILEGED ACCESS ABUSE

# Today's Security Is Not Secure

**\$137B**

EXPECTED SPENT  
ON IT SECURITY IN 2019

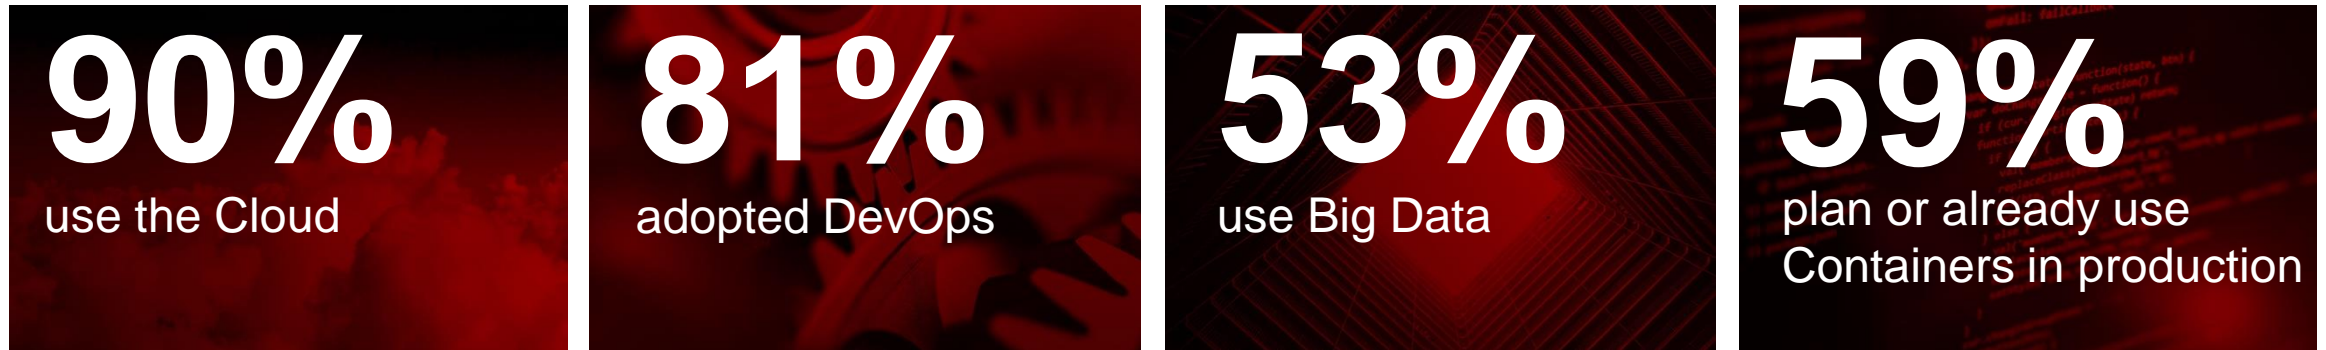

**66%**

YET 66% OF COMPANIES  
ARE STILL BREACHED

And worse, they're breached  
on average five or more times

# Today's Realities

## AN EXPANDED ENTERPRISE ATTACK SURFACE

## PRIVILEGE ABUSE IS THE LEADING CAUSE OF DATA BREACH

**80%** breaches involve privileged credential misuse

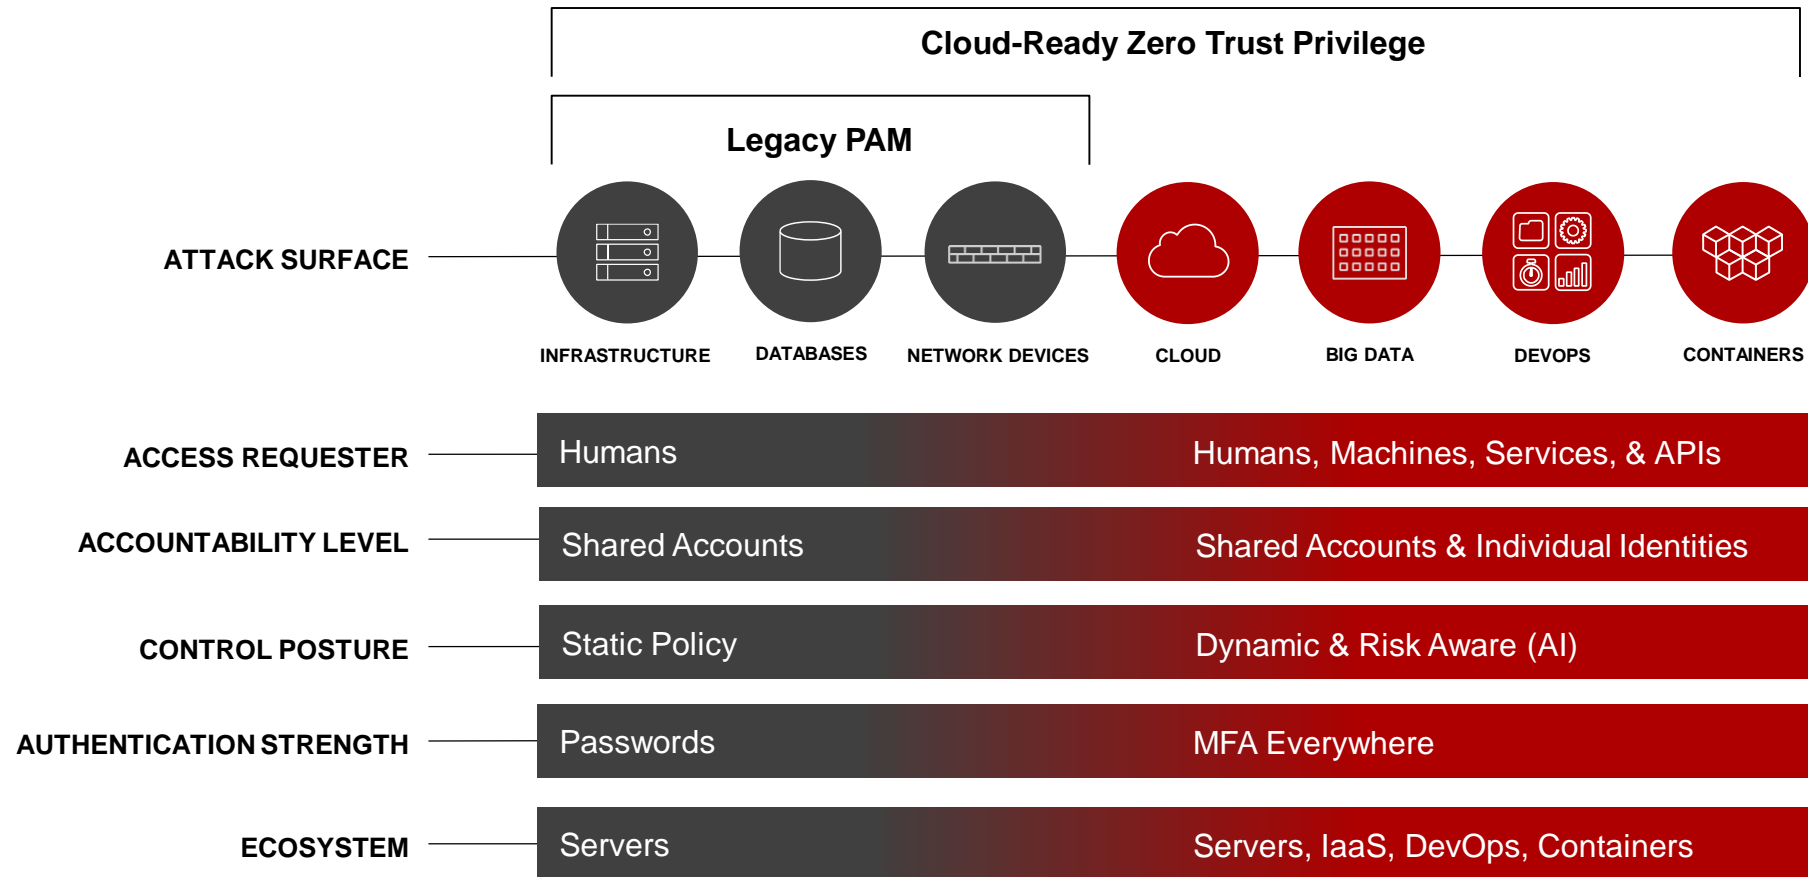

# Exposing You to Imminent Risk

It takes only **1** compromised privileged credential  
to impact **Millions**

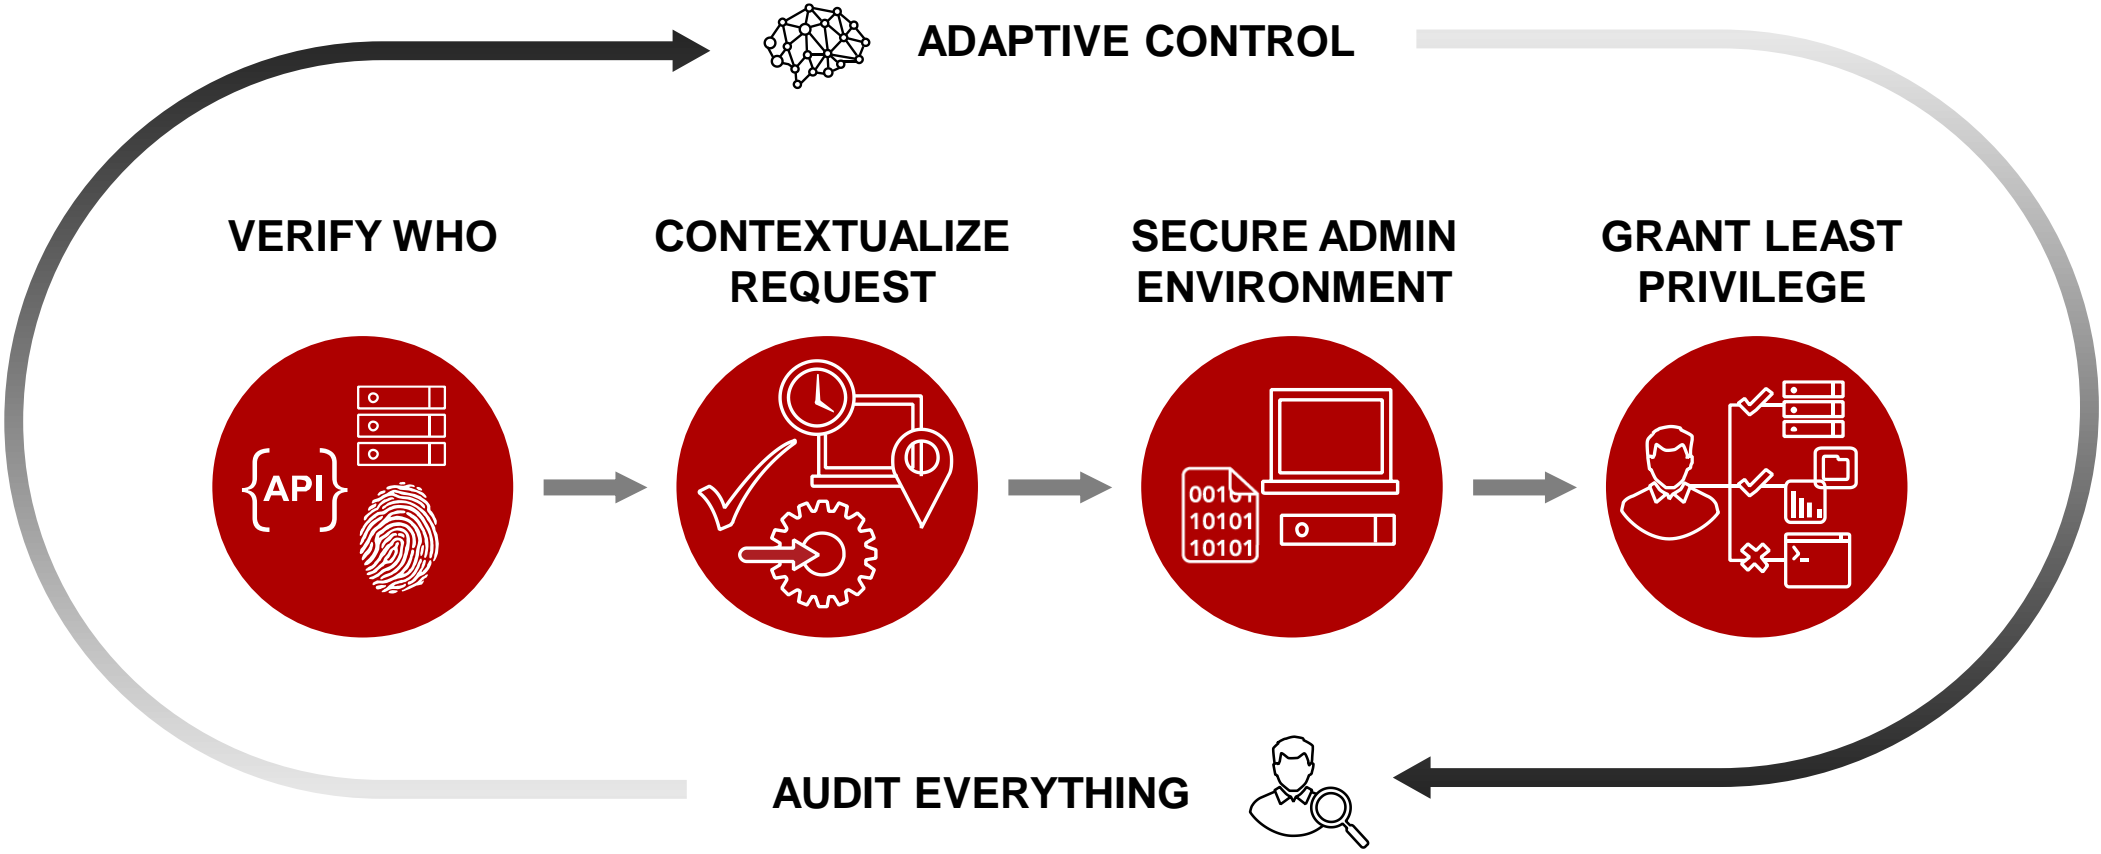

# Legacy PAM is Not Enough for the Expanded Threatscape

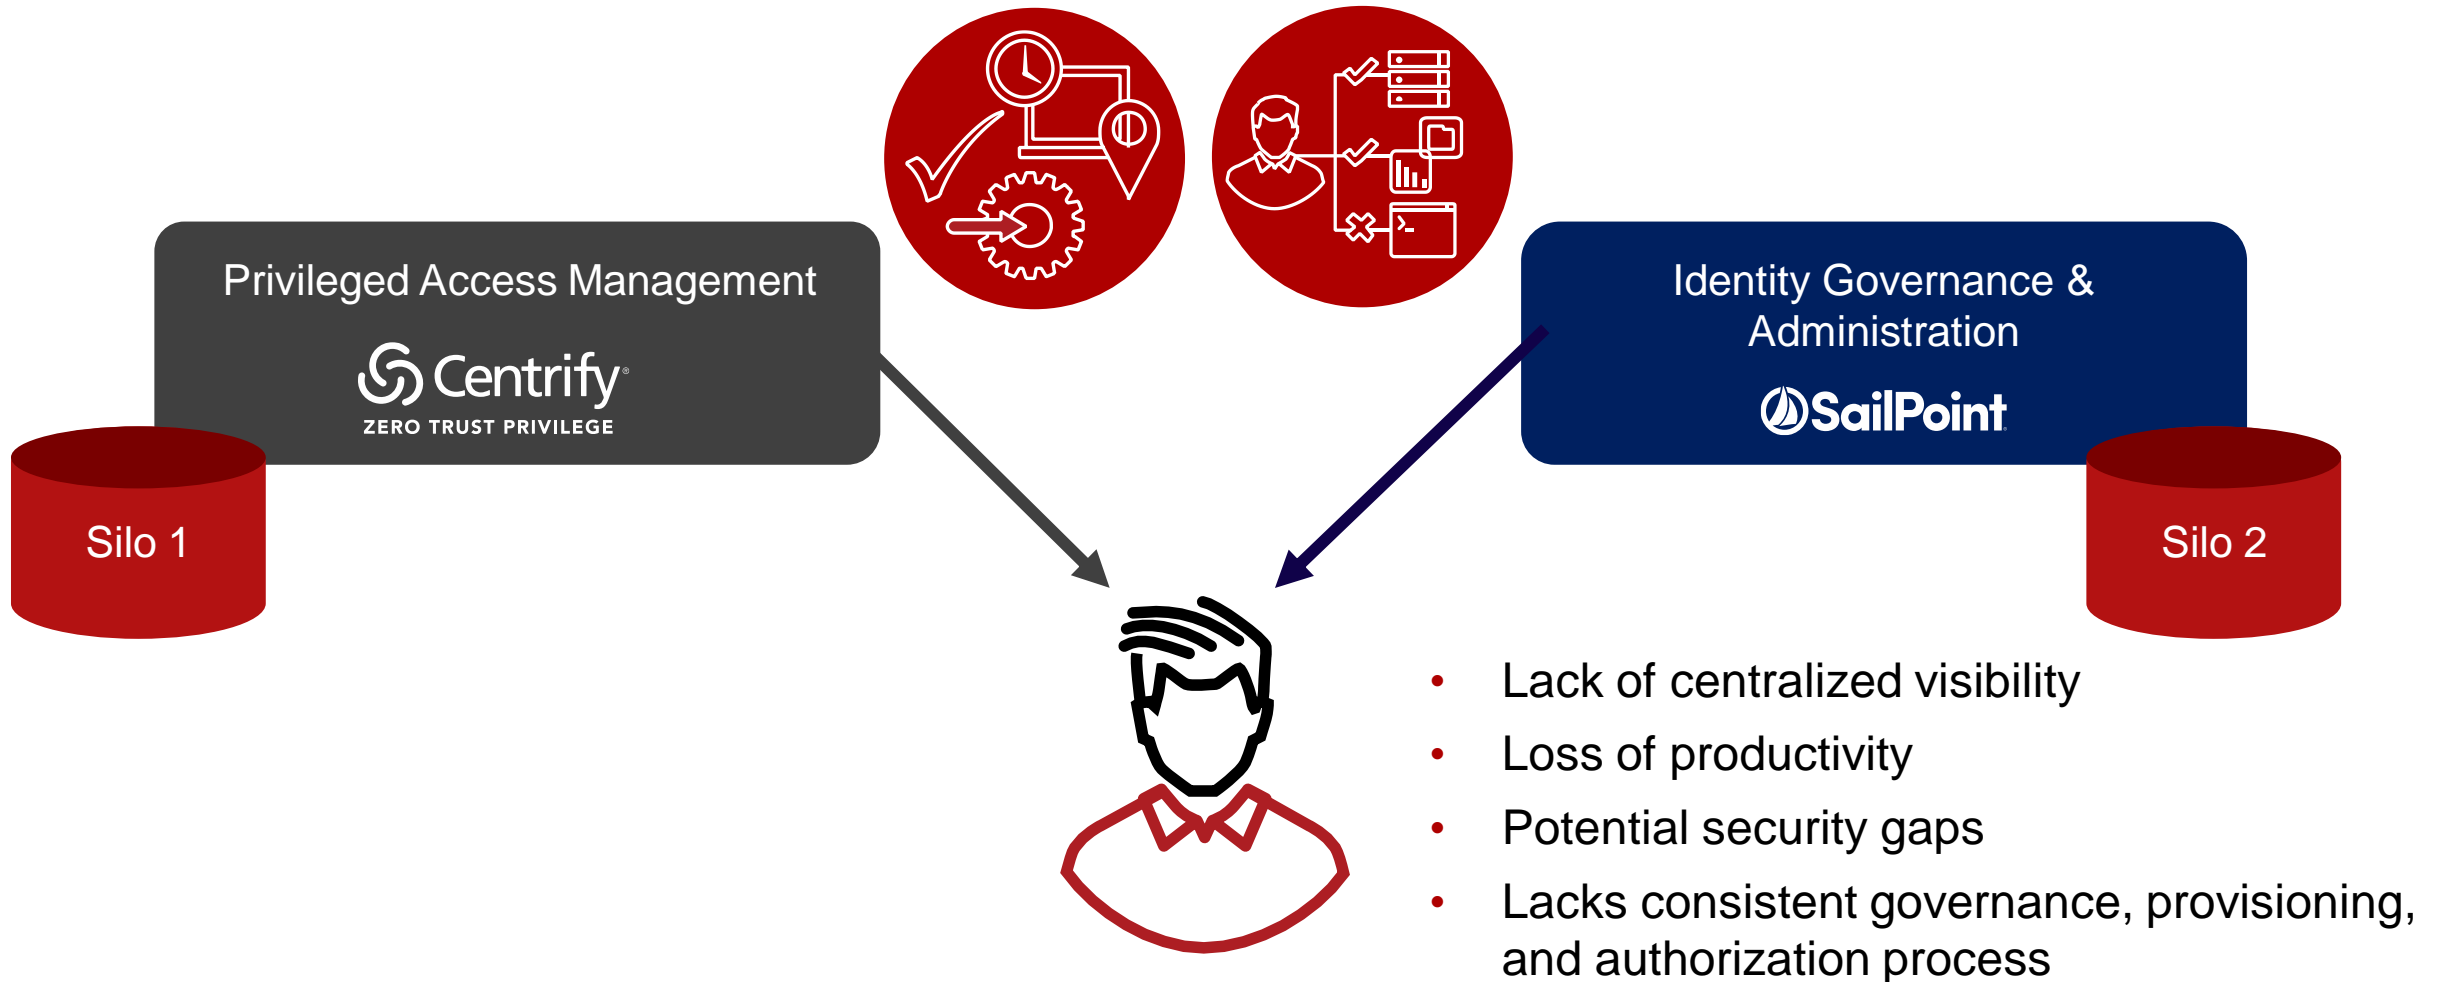

# From Legacy PAM to Cloud-Ready Zero Trust Privilege

# Zero Trust Privilege Approach

# Avoid Identity Silos

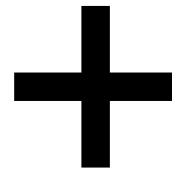

# Reduce Risk by Combining Privileged Access with Identity Governance

Better Together

# Privileged Access Controls and Identity Governance and Administration

# Centrify and SailPoint: Two Industry Leaders

# Combining Privileged Access and Identity Governance

# Two Solutions. One View.

## PROVISION SAILPOINT IDENTITYIQ USERS TO CENTRIFY ROLES AND SETS

- Provision users from SailPoint IdentityIQ directly into Centrify Privileged Access Service (PAS) 'Roles' and grant them permissions on 'Sets'.
  - ✓ Centrify 'Roles' define user rights for operations within Centrify PAS, and access rights to resources.
  - ✓ Centrify 'Sets' are collections of resources, including systems and accounts.
- Provision user entitlements and permissions to Centrify PAS from within SailPoint IdentityIQ.

## ATTESTATION AND REMEDIATION FOR CENTRIFY ROLE MEMBERSHIP AND SETS PERMISSIONS

- View the complete list of entitlements within Centrify PAS for a given user and integrates the information into the user's certification process.
- History of a user's entitlements provisioning is available from within SailPoint IdentityIQ. Centrify PAS maintains its own separate record of a user's entitlements, which also includes any user entitlements provisioned outside of SailPoint IdentityIQ.

# Centrify and SailPoint: Better Together

- **Centralize** provisioning, governance, and identity management processes, including privileged users and their access entitlements.
- Gain **transparency** and control of privileged user access entitlements from within SailPoint IdentityIQ.
- Identify **risks** and subsequently align privileged user entitlements.
- Increase **operational efficiency** in the context of attestation for compliance purposes.
